# Mac Sync Tool Patch

An update for the Mac Sync Tools at Saturday 27th June 2015 has caused a lot of Mac Sync Tools to disconnect from the vBoxxCloud server.
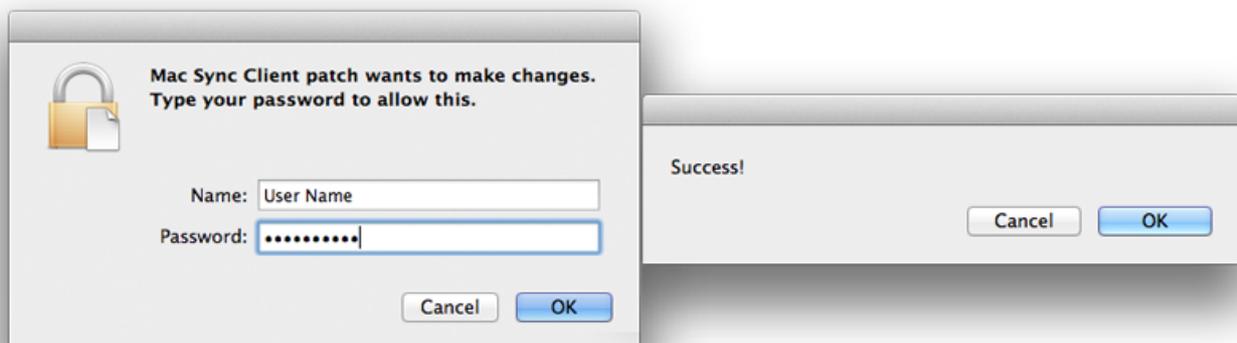

Solution

1) Download the update here.

2) Press with the right mouse button on "*2.3.3_fix*" and select "Open"

Open the "2.3.3_fix" by clicking on it with the right mouse button

3) Fill in your Mac OSX user and select "OK". Wait 1 minute and then select "OK" again.

Open the "2.3.3_fix" and press on "OK"

4) Restart the computer or the Sync Tool
